Alta is an ideal choice when creating a modern contemporary style. With its choice of gloss, matt or timber effect finishes in a mix of natural and rustic colours; it fits perfectly with the neutral, earthy and metal materials that are a popular feature within this design trend.

Inspired By Contemporary Style

Matt Anthracite & Rustic Oak

The Alta collection offers stunning finishes in gloss, matt and timber effects that can be used to create a minimalist style or a rustic contemporary look.

The design can be complemented by chic handles in graphite or copper. Then choose from statement work surfaces that finish off this contemporary kitchen design.

Rustic Oak

## INSPIRED BY MINIMALIST INDUSTRIAL SPACES

Modern contemporary style takes cues from old factories and industrial spaces. Popular features include weathered wood, exposed brick, industrial lighting fixtures and concrete. Alta's range of finishes in matt, gloss and timber effect sit well with the neutral, rustic and metal finishes of this popular design trend.

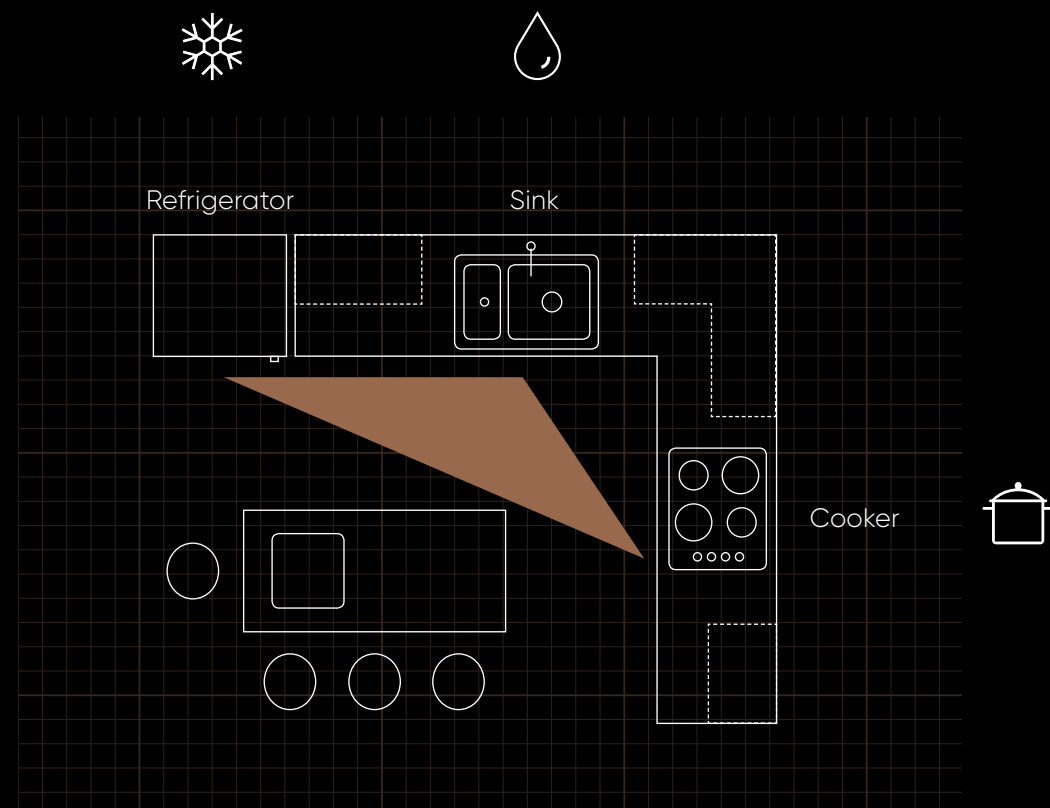

# THE SHAPE OF THINGS TO COME

The kitchen work triangle is a concept we use in the design of efficient kitchen layouts. The primary tasks in a home kitchen are carried out between the cooker, sink and the refrigerator. These three points and the imaginary

lines between them offer you a seamless workflow. So if the shape of your kitchen is U-shaped, L-shaped, galley or otherwise a layout using the triangle at its heart can change the way you use your kitchen.

## DESIGNER TIP

*When redesigning a kitchen, put function first. Whatever the kitchen shape, plan for the sink, fridge and cooker to form a triangle for ease of movement.*

## 1 Creating a space to socialise

The kitchen has taken over from the dining room as the place to relax and socialise. A bar with stools or an island unit offers extra kitchen workspace as well as creating a central focal piece.

## CHANGE YOUR LIFESTYLE AROUND THE ISLAND

## 3 Freedom to cook

For those wanting to release their inner chef, the ultimate gourmet kitchen requires lots of space for easy manoeuvring and top of the range gadgets to prepare and cook your exquisite meals.

## 2 A place to relax

The kitchen has changed with the times we live in. It has become an all purpose room where everyone gets involved. It is a place to relax and entertain as well as a place to cook.

## DESIGNERS TIP

*When planning your kitchen colours, think about the whole room: walls, floor, cabinets, and work surfaces. For palette inspiration, look at colours that exist together in nature or find inspiration in your prized possessions or collections.*

Black and white is a classic pairing that's always in style. Pure and clean, the combination goes well with vintage style, or looks equally great in a contemporary setting. Never out of fashion, dark and light dare you to be different.

### DESIGNERS TIP

*The simplest way of making your kitchen stand out is to have two tones. Basic rules for this is to have your darker doors lower down in the design. You can also run that colour through into the tall cabinets as well.*
