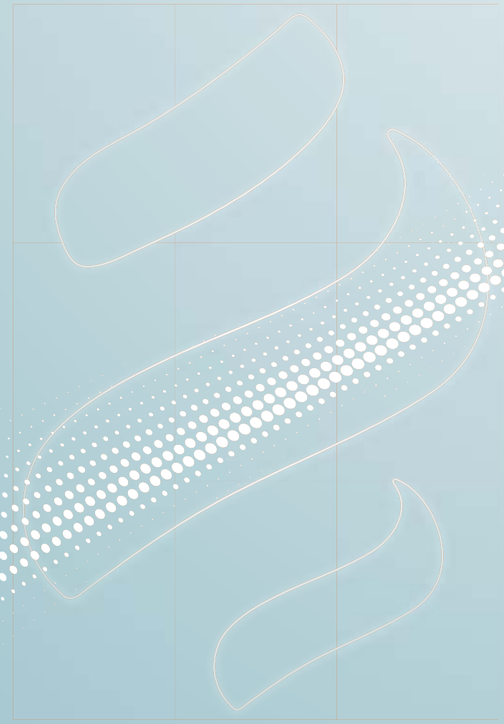
AIR

we are the **AIR**chitects

elica

UK range 2017-18



OUR HOUSEHOLD AIR CAN BE DESIGNED.
ELICA IS THE FIRST AIR ARCHITECT.
ELICA MEASURES AIR CONDITIONS. ELICA REGULATES AND
CLEANS IT. THERE IS NEW AIR THROUGHOUT THE HOUSE.

Three Lines, you choose

THREE SOLUTIONS. JUST FOR YOU.
THREE CHAPTERS, THREE DIFFERENT PROPOSALS THAT MEET EVERY NEED.

STREAM, CONNECTED SYSTEMS, THROUGHOUT THE HOUSE WHICH WORK AUTONOMOUSLY.FOR THOSE WHO LOVE SMART OBJECTS.

TÉCHNE, FOR WHOEVER IS LOOKING FOR SELF- ADJUSTING HOODS, WITH THE BEST PERFORMANCE IN TERMS OF ASPIRATION, FILTERING, SILENCE AND ENERGY EFFICIENCY.

ICONIC FOR WHOEVER LOVES ELICA'S UNIQUE DESIGN, WHERE THE UTMOST ATTENTION IS PAID TO EVERY DETAIL, AND USE OF THE MOST INNOVATIVE MATERIALS IN LINE WITH THE LATEST TRENDS.

Air is precious. This everyday awareness has always driven Elica's design sense, supported by the most advanced technology in the field.
The three product lines are able to meet the needs related to the different ways of living and cooking all around the world.

STREAM /10

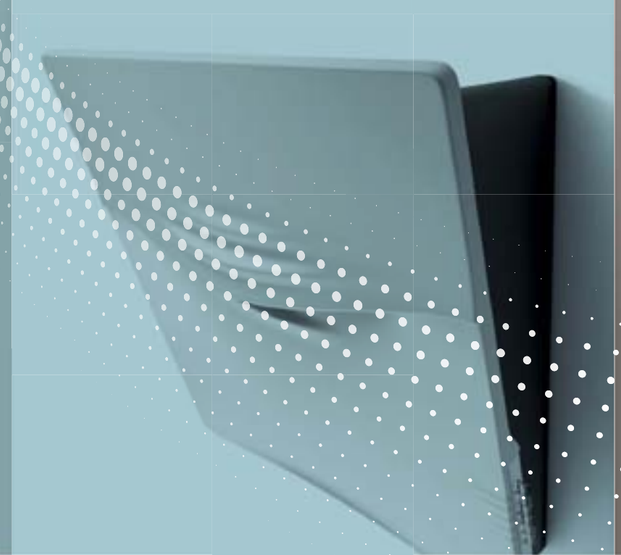
TECHNOLOGICAL OPERATION AND CONTROL PLATFORMS. THE HOOD IS THE INTERACTIVE AND SMART HEART OF THE KITCHEN.

Products designed for anyone who loves the most advanced technological solutions provided by home automation, which are people-oriented, simple and intuitive at the same time. For anyone who wants smart systems that are able to communicate with each other, and to monitor and improve kitchen air. The hoods in the Stream line wirelessly communicate with Elica hobs and air balancers

TÉCHNE /64

TÉKHNE-LOGHÌA IS THE GREEK TERM MEANING DOING, ART, AND TECHNIQUE. NOT JUST SIMPLY KNOWING BUT KNOWING HOW TO DO THAT. IT COMBINES WITH DESIGN AND FUNCTION. IT BECOMES ADVANCED TECHNOLOGY WITH AN APPEALING LOOK.

Technology intended as an art and a craft, as the ability to solve problems. The products in the Téchne line have this soul. Performance is very high and energy efficiency is at a maximum level. Very high aspiration capacity and very low noise level. Lighting is adjustable both in brightness and colour warmth. The special filters can absorb even the strongest odours. Sensors allow the hood to self-regulate.



ICONIC /108

THE STYLE AND TRADITION OF HOODS THAT HAVE BEEN DESIGNED TO BRING BEAUTY TO EVERY HOME. ELICA COMBINES PEFORMANCE, RELIABILITY AND EMOTIONAL DESIGN.

Elica can boast long experience and know-how in manufacturing appliances with innovative materials and refined finishing touches. Skilled craftsmanship, together with technological research, results in high quality, elegant products. Excellent features with a surprising look.

LIEN HOBS

elica

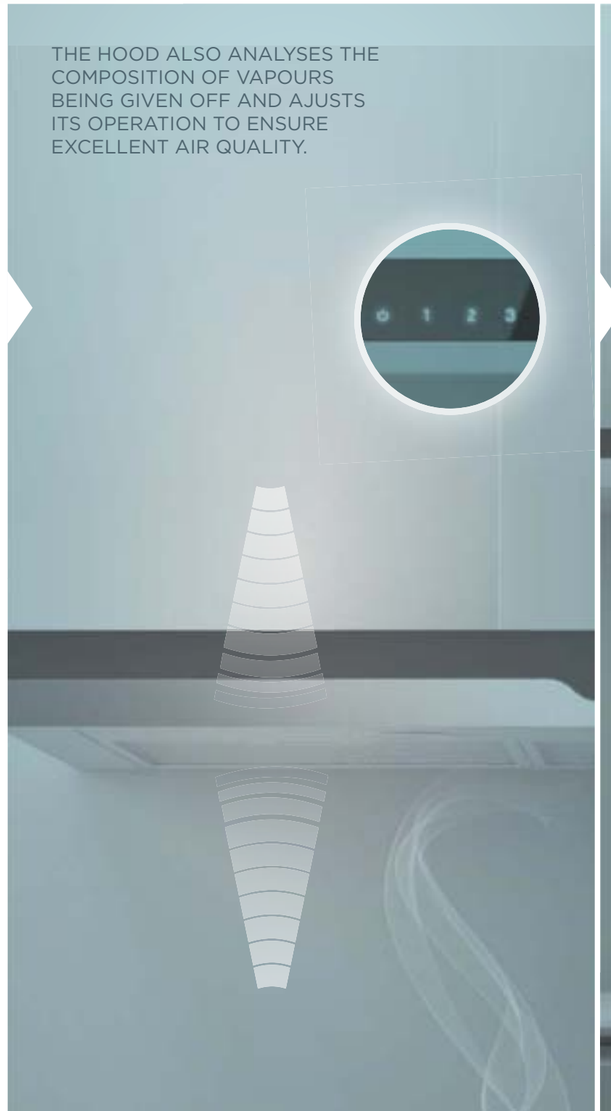
STREAM

THANKS TO **STREAM**, PERFORMANCE IS OPTIMISED AND EXCELLENT AIR QUALITY IS ASSURED.

THE HOB INFORMS THE HOOD ABOUT THE NUMBER AND POWER OF ZONES ON AND THE PRESENCE OF POTS.

THANKS TO ITS INNOVATIVE SENSORS, THE HOOD RECOGNISES THE QUANTITY AND COMPOSITION OF COOKING VAPOURS AND REACTS IN REAL TIME INTEGRATING THE INFORMATION FROM THE HOB, THUS ACHIEVING OPTIMUM PERFORMANCE.

THE HOOD ALSO ANALYSES THE COMPOSITION OF VAPOURS BEING GIVEN OFF AND AJUSTS ITS OPERATION TO ENSURE EXCELLENT AIR QUALITY.



THE HOOD WILL CONTINUE RUNNING UNTIL THE AIR QUALITY REACHES A LEVEL WHERE IT IS NO LONGER NEEDED AND THEN TURNS ITSELF OFF PREVENTING WASTAGE OF ENERGY.

NIKOLATESLA

DESIGN FABRIZIO CRISÀ

AN UNCONVENTIONAL UNION FOR ANYONE WHO LOVES THINKING OUTSIDE THE BOX

NikolaTesla is an induction hob and cooker hood in the same appliance; the first Elica cooktop with a fully integrated air suction system. The central fan, integrated unobtrusively into the cooktop, ensures high performance, near silent operation and excellent energy efficiency (class A+ rating), so improving air quality and comfort in the kitchen

The extractor control system communicates directly with the induction hob and as it receives information about each cooking zone, automatically adjusts suction power and speed leaving you to concentrate completely on cooking.

Available both in duct-out and re-circulating modes, Nikolatesla has been designed to fit in any type of living space.

THE NEW, HIGH-PERFORMANCE CERAMIC ODOUR FILTERS, USED IN THE RE-CIRCULATING MODE OF NIKOLATESLA, ARE DIRECTLY ACCESSIBLE FROM THE COOKTOP. SIMPLY BY REMOVING THE ACCESS PANEL THE FILTERS CAN EASILY BE TAKEN OUT AND CLEANED.

SIMILARLY, YOU CAN EASILY REACH THE ALUMINIUM GREASE FILTER FOR REMOVAL AND CLEANING IN A DISHWASHER.

TO PROTECT THE EXTRACTOR FROM DAMAGE EVEN FROM LARGE SPILLAGES, NIKOLA TESLA HAS A LIQUID COLLECTION CONTAINER WHICH IS EASY TO DRAIN AND CLEAN.

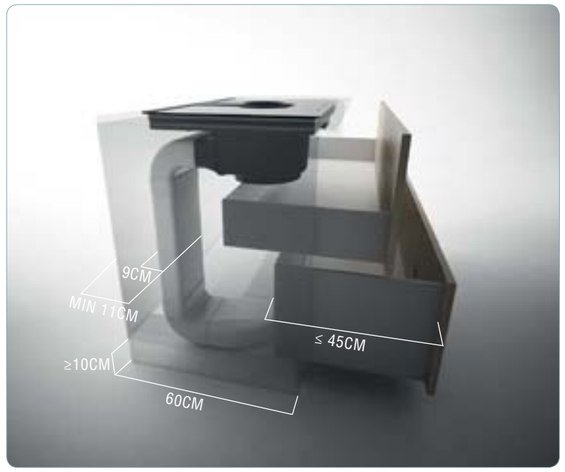
COOKING VAPOURS AND ODOURS RISE AT A MAXIMUM SPEED OF ABOUT 1 M/S AND ARE QUICKLY CAPTURED BY NIKOLATESLA, WHICH HAS A FUMES CAPTURE SPEED OF ABOUT 5 M/S. EFFECTIVELY CATCH PRACTICALLY ALL THE VAPOURS AND ODOURS

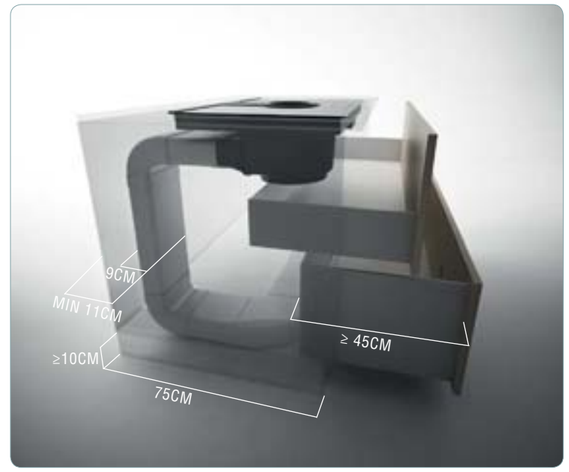
ELICA PATENT 102016000034820

NIKOLATESLA HAS BEEN DESIGNED FOR MAXIMUM INSTALLATION FLEXIBILITY AND THE MOST EFFICIENT USE OF CABINET SPACE. ADJUSTABLE REAR DUCTING, CAN BE POSITIONED IN DIFFERENT WAYS TO ALLOW FOR DIFFERNET STORAGE OPTIONS BELOW THE HOB.

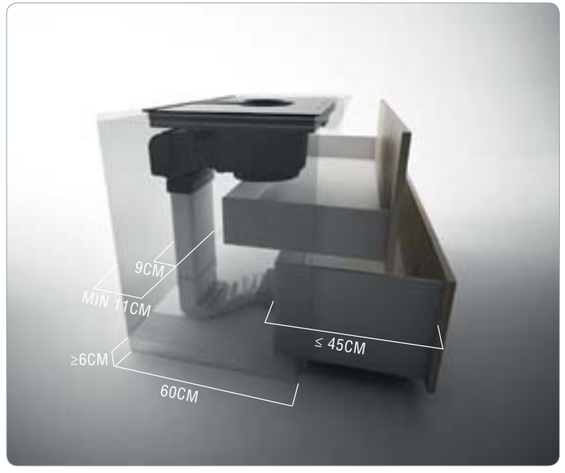
NIKOLATESLA IS AVAILABLE IN DUCT-OUT OR RE-CIRCULATING ModeS

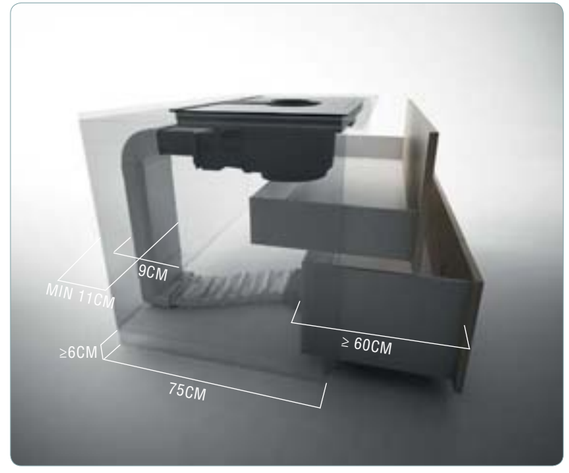
NIKOLATESLA STANDARD DUCT-OUT MODE





NIKOLATESLA STANDARD RE-CIRCULATING MODES





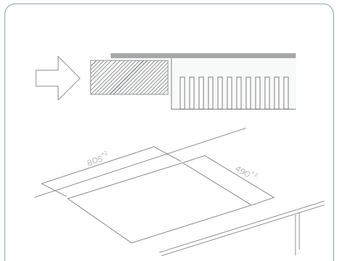
NIKOLATESLA - INSTALLATION MODES

NIKOLATESLA HAS BEEN DESIGNED TO FIT INTO MANY DIFFERENT KITCHEN LAYOUTS.

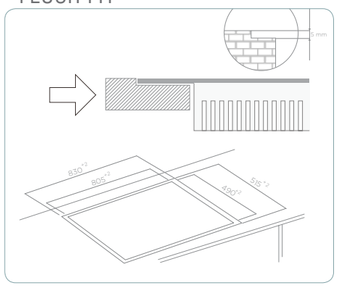
NIKOLATESLA CAN BE INSTALLED DIRECTLY IN THE WORKTOP WITH 4MM PROFILE OR FLUSH FITTED WITH ONLY A 1MM GAP

NIKOLATESLA'S INTELLIGENT SYSTEM ALLOWS THE EXTRACTOR TO ADJUST AUTOMATICALLY ACCORDING TO THE HOB USAGE

STANDARD



FLUSH FIT



IN THE BOX

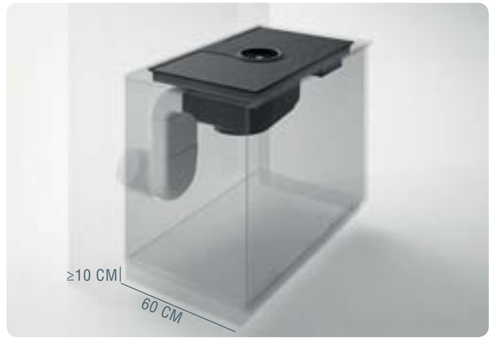
IN THE RE-CIRCULATING MODE IT COMES COMPLETE WITH ALL COMPONENTS NEED FOR STANDARD INSTALLATION INCLUDING THE EXCLUSIVE CHROMIUM PLATED PROFILE FOR THE PLINTH OUTLET, FOR THE DUCT-OUT MODE A WIDE RANGE OF DUCTING IS AVAILABLE TO SUIT ANY INSTALLATION.

NIKOLATESLA STANDARD DUCT-OUT MODE

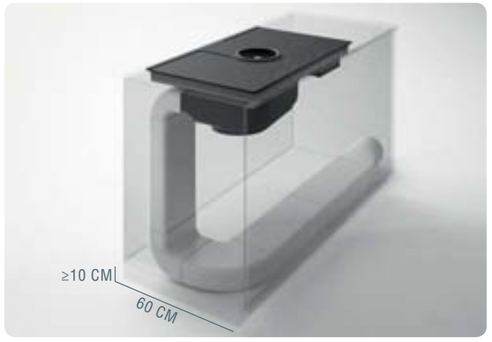
Installation accessories on page 250.

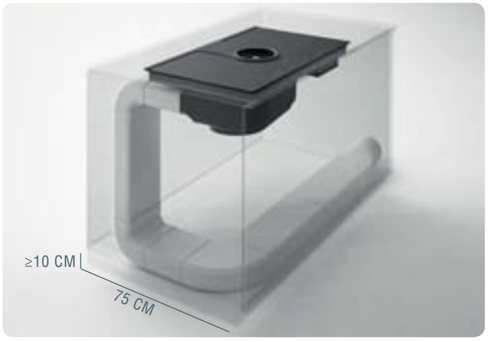
NIKOLATESLA STANDARD RE-CIRCULATING MODES

DUCT-OUT

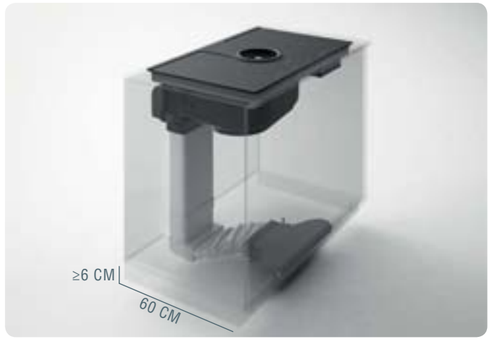


COOKING VAPOURS ARE CONVEYED TO THE OUTSIDE THROUGH DUCTING UNDER THE PLINTH WHICH CAN BE AS LOW AS 100MM

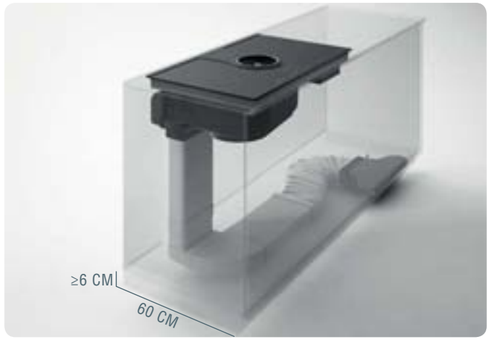


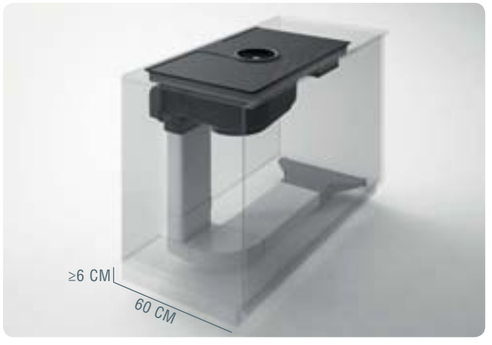


RE-CIRCULATING



THE RE-CICULATING MODE IS SUPPLIED COMPLETE WITH ALL COMPONENTS FOR EASY INSTALLATION WITH PLINTHS AS LOW AS 60MM





SNAP
AIR QUALITY BALANCER

SNAP, ‘AIR QUALITY BALANCER’ IS AN INNOVATIVE PRODUCT FOR EXTRACTING BAD AIR, IT MONITORS AND IMPROVES THE QUALITY OF THE AIR ENVIRONMENT AUTOMATICALLY.
BY CALIBRATING SNAP TO THE ENVIRONMENT AND PERSONAL WISHES, IT IMPROVES THE QUALITY OF AIR AND SENSE OF WELL-BEING.

SNAP COMMUNICATES WITH THE OUTSIDE OF YOUR HOUSE THROUGH A HOLE IN THE WALL, BY MEANS OF WHICH IT REMOVES UNPLEASANT ODOURS, POLLUTANTS AND EXCESS VAPOURS. SNAP CAN DO IT WITH MINIMUM HEAT LOSS AND PREVENTING INSECTS OR OTHER UNPLEASANT 'GUESTS' FROM GETTING INTO YOUR HOME.

BENEFITS

Snap has been the focus of scientific studies developed by EcamRicert, a prestigious institute for environmental research which is certified and operates throughout Europe.
Measurements carried out before and after the contamination and following the activation of Snap have demonstrated that both the chemical and physical polluting agents (Voc, nicotine, aldehydes, aromatic compounds, poly-cyclical hydro-carbons) as well as micro-biological ones (dust, pollen, mites, viruses, bacteria) were substantially reduced.

YOUR AIR, ALWAYS REFRESHED

Snap registers the conditions of humidity, temperature and the air-quality in the room automatically activating a calibrated exchange of air-flow according to the specific needs, whenever it detects the presence of pollutants or an excess of humidity.

LESS ODOURS

Snap reduces the persistence of unpleasant odours from cooking, detergents, paints or other building materials.

MAXIMUM AUTONOMY

Snap, monitoring air-conditions, always knows when and to what extent it should intervene in order to ensure a complete exchange of fresh-air.

WHEREVER YOU MAY BE

Snap App allows to keep the values relating to the quality of indoor-air under control, in real-time from wherever, and to have access to the extra contents and upgrades.

PERFECT FOR EVERY ENVIRONMENT

The shape and unobtrusive design of Snap makes it adaptable to any indoor environment The innovative carefully selected, materials give the product elegance and resistance to wear.

IN CONTINUAL UPGRADE

Snap is able to upgrade its own software autonomously, in order to ensure optimal functioning over time.

SENSORS

AIR QUALITY
DETECTS THE PRESENCE OF POLLUTANTS LIKE VOC, (VOLATILE ORGANIC COMPOUNDS) THAT ORIGINATE FROM EITHER SMOKE, DETERGENTS, SPRAYS, BUILDING-MATERIALS OR COOKING ODOURS.

HUMIDITY
KEEPS THE HUMIDITY CREATED BY COOKING OR OTHER ACTIVITIES UNDER CONTROL, THUS REDUCING THE FORMATION OF BACTERIA AND MOULD WHICH ARE LIKELY TO ‘APPEAR’ IN EXTREMELY HUMID ENVIRONMENTS.

TEMPERATURE
MONITORS THE TEMPERATURE TO ENSURE THE BEST THERMAL COMFORT.

THE MOTOR

SNAP IS EQUIPPED WITH A LASTEST GENERATION “BRUSHLESS” MOTOR FOR HIGH EFFICIENCY ENERGY CONSUMPTION IS ONLY 7W AT MAXIMUM ASPIRATION SPEED.

FIVE FUNCTIONS PERMIT ENABLE SNAP TO BE SET ACCORDING TO SPECIFIC NEEDS.

AUTOMATIC

When set to stand-by Snap activates automatically and only when it is necessary.
Should one of its sensors detect different values as compared to previous registered ones identified as the " ideal situation", it will automatically start.
It removes from the environment odours, pollutants, excessive humidity and possible proliferation of bacteria, moulds, viruses etc.
It monitors the temperature and regulates the outgoing air flow in order to limit heat loss.

DETOX

It monitors the air-quality, and clears odours and pollutants like dust, pollens, mites, chemical pollutants deriving from smoke, sprays, detergents, paints, and cooking odours and smoke.

DRY

Snap focuses on monitoring the humidity level and whenever necessary, it activates an exchange of fresh air, thus reducing the formation of condensation and moulds. It takes care over your health, the conservation of your indoor environments and all that is there.

MANUAL

Snap can be switched on whenever you want to activate it. Should you feel the need to air your room. Snap either on minimum or on high speed. It will completely exchange the air in a 25sqm room in just 30 min.

LINK

Snap will co-ordinate with an Elica Sense hood to quickly restore optimum air quality. The Sense hood using it's wifi connection, will automatically activate Snap.

- SUPPORTED WIRELESS SECURITY: OPEN, WEP, WPA2
- WORKING WI-FI CONNECTION: 802.11 B/G/N @ 2.4GHZ
- SSID: NOT HIDDEN
- WI-FI ENTERPRISE CONNECTION: NOT SUPPORTED

- WITH IOS 7 OR LATER
- WITH ANDROID 4.03 OR LATER

SENSORS

AIR QUALITY

HUMIDITY

TEMPERATURE

REMOTE CONTROL

Snap can be managed through **Snap App** or activated by the **remote control** supplied.
Very easy to use, Snap App allows you to read the values relating to humidity, quality and air-temperature at any moment, as well as manage Snap and its functions, and have access to a whole world of services, free upgrades and new functions.
Modern as well as ergonomic, the remote-control device allows you to control your Snap from any corner of the room. The glass and the touch-control keys, confer on it style and elegance.

STREAM
LIEN HOBS

INDUCTION HOBS EQUIPPED WITH A WIRELESS SYSTEM THAT CONNECTS THEM WITH THE HOOD. THE HOODS, WHICH ARE EQUIPPED WITH SENSORS, RECEIVE INFORMATION FROM THE HOB ABOUT THE TYPE OF COOKING, AND REGULATE THEIR ASPIRATION CAPACITY ACCORDINGLY.

#SENSIBILITY #COMMUNICATION #BREATH #CONNECTION

WIRELESS CONNECTIVITY

The LIEN hobs are equipped with wireless technology which allows the transmission in real time of information on the use of the hob: active zones, cooking power and the presence of pots.

TEMPERATURE MANAGER

The hob can be used with three programmes (42, 74 or 92 degrees) to always ensure perfect cooking. Temperature settings are optimised both for very delicate types of cooking (mousse, sauces, keeping food warm) or for cooking that requires high power (for example boiling).

BRIDGE ZONES

The Bridge function enables zones to work individually or to be joined together when using large pans and pots - the hob that adapts to the pans being used.

POT DETECTOR

Elica induction hobs automatically detect the presence of pots on the cooking zones, in order to facilitate cooking, avoiding tedious steps and energy waste: just place the pot and directly select the desired power level.

POWER LIMITATION

The Power Limitation function automatically limits the power consumption according to which of the three power thresholds (3 kW, 4,5 kW and max) is set at installation. This is very useful where power supply is limited.

CHEF COOK

The Chef Cook function sets the 4 zones automatically with a selected power which increases from the left to the right side. Once the Chef Cook has been set, the pot can be moved from one zone to another depending on the required cooking temperature – as in a professional kitchen.

STOP&GO

Stop&Go allows you to switch the hob off, and then to quickly resume use at the previous temperature settings.

1 **TOUCH CONTROL**

THE TOUCH CONTROLS ALLOW YOU TO EASILY AND INDEPENDENTLY CONTROL THE COOKING ZONES, AND THANKS TO THE INDICATORS THAT SHOW THE SET POWER LEVEL, EACH ZONE IS VERY SIMPLE TO MONITOR.

2 **POWER BOOSTER**

THE POWER BOOSTER FUNCTION ENABLES MORE POWER TO BE RELEASED AND ACCELERATES THE HEATING TIME OF EACH COOKING ZONE, SUCH AS BRINGING BIGGER QUANTITIES OF WATER TO THE BOIL

3 **RESIDUAL HEAT INDICATOR**

SPECIAL LIGHTS WARN IF THE COOKING ZONE IS STILL WARM, EVEN AFTER THE HOB HAS BEEN SWITCHED OFF.

4 **TIMER**

THANKS TO THE PROGRAMMABLE TIMER, IT IS POSSIBLE TO MANAGE EACH PREPARATION/ COOKING TIME. WHEN DONE, THE HOB WILL GIVE OFF AN ACOUSTIC WARNING AND AUTOMATICALLY SWITCH OFF THE COOKING ZONE CONCERNED.

5 **EGG TIMER**

ACUSTIC SIGNAL TIMER INDEPENDENT OF COOKING ZONES.

6 **SAFE ACTIVATION & CHILD LOCK**

WITH LIEN, THE KITCHEN IS SAFER: THE HOBS ONLY SWITCH ON WHEN POTS ARE PRESENT ON THE COOKING ZONES, AND THE CHILD LOCK PREVENTS CHILDREN FROM ACCIDENTLY SWITCHING ON THE HOB.

7 **COLD SURFACE**

WITH INDUCTION TECHNOLOGY, ONLY THE BOTTOM OF THE POT IS HEATED, WHILE THE REST OF THE HOB SURFACE REMAINS COOL.

8 **9 POWER LEVEL**

YOU CAN CHOOSE FROM NINE DIFFERENT POWER LEVELS IN A VERY QUICK AND INTUITIVE WAY, FOR EVERY TYPE OF COOKING NEED.

9 **AUTOMATIC HEAT UP**

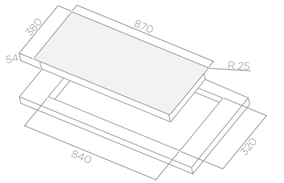
THE HOB AUTOMATICALLY HEATS UP AT MAXIMUM POWER AND RESTORES THE LEVEL SELECTED AFTER A SET TIME.

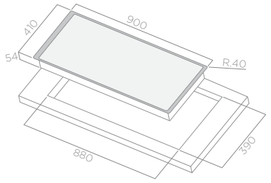
10 **SAFETY SHUTDOWN**

THE PAUSE FEATURE ALLOWS YOU TO SWITCH THE HOB OFF AND THEN TO QUICKLY RESTART WORKING AT THE SAME TEMPERATURE. WHEN THE PAUSE FEATURE IS ENABLED, THE COOKING ZONE KEEPS A CONSTANT LOW TEMPERATURE.

DIAMOND 874 / DIAMOND FRAME 904

DESIGN FABRIZIO CRISÀ





Size	870 x 380 x 55 mm, 900 x 410 x 55 mm (FRAME 904)

WHY THE INDUCTION HOB

Induction hobs are becoming increasingly common in the kitchen: they represent an ideal combination of performance, functionality and look, while at the same time guaranteeing maximum safety in all types of cooking.

LIEN INDUCTION HOBS IN YOUR KITCHEN: PERFORMANCE, FUNCTIONALITY, SAFETY AND DESIGN.

Elica's Lien induction hobs improve and simplify all kinds of cooking, guaranteeing precision and uniformity of the end result.

They also ensure:

1 REDUCTION OF COOKING TIME
The induction technique means that heat is generated directly in the pot, greatly reducing cooking time while keeping the temperature constant and uniform over the whole surface.

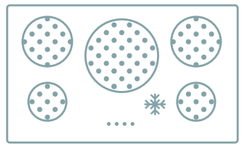
2 MAXIMUM SAFETY
The cooking area is activated only upon contact with the pot, leaving the remainder of the cooktop surface cold, thus guaranteeing maximum safety and avoiding energy waste.

3 FLEXIBILITY
Induction hobs allow a larger cooking area to be used, ensuring maximum flexibility.

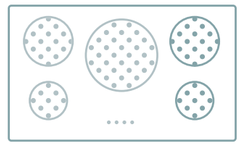
4 EASE OF USE
For every kitchen requirement, use is easy and direct: just a simple touch to adjust power and temperature in each zone.

5 ELICA DESIGN
Elegant, efficient, and easy to clean, Elica's Lien induction hobs satisfy all your kitchen cooking demands.

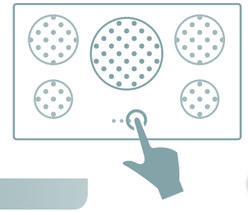
1



2



3



4

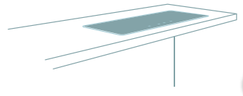
HOW TO CHOOSE IT

Choose the Elica induction hob that integrates perfectly with your kitchen, providing aesthetic enhancement while allowing you to cook in optimal conditions, saving time and ensuring excellent cooking quality.

Choose the hob in relation to the size of your work surface, ranging from a minimum of 60 cm to a maximum of 90 cm.

FOR THOSE WHO LOVE COOKING, ELICA'S LIEN HOBS REPRESENT THE IDEAL SOLUTION

Thanks to the bridge zone, pans of any size can be freely positioned within the induction hob's two large rectangular cooking zones.



5

HOW TO INSTALL IT

BEFORE INSTALLING YOUR HOB, PLEASE REMEMBER THE FOLLOWING SUGGESTIONS:

- Follow all the steps indicated in the instruction manual
- Verify that all size requirements are respected in order to obtain optimal performance without harming other kitchen cupboards;
- Check that the position of the electrical socket is close to the hob;
- Should any difficulties arise, request the intervention of a reliable specialist technician.

Lien induction hobs offer different installation modes:

6 STANDARD INSTALLATION
Standard installation of the frameless induction hob involves direct placement of the glass lip on the work surface.

7 SEMI FLUSH INSTALLATION
Semi flush installation involves placement of the induction hob with a frame only 1 mm thick on the work surface.

8 FLUSH INSTALLATION
With flush installation, the induction hob is inserted with gap of 1 mm, and completely flush with the work surface.

TAKING CARE OF IT

ELICA'S LIEN INDUCTION HOBS ARE DESIGNED AND MANUFACTURED TO ENSURE OPTIMUM LONG-LIFE OPERATION.

Thanks to the perfectly smooth surface and the special glass-ceramic material, cleaning is extremely quick and easy: just use a soft cloth and a mild detergent.

elica

TÉCHNE

THE TÈCHNE HOODS ARE AN EXAMPLE OF PURE MODERN TECHNOLOGY, WITH VERY HIGH PERFORMANCE, FOR ANYONE WHO LOVES COOKING. ASPIRATION, LIGHTING AND INTERACTION SYSTEMS INTELLIGENTLY MEET THE NEEDS OF EVERYDAY LIVING, IN A SIMPLE YET HIGHLY EFFICIENT WAY.

#INNOVATION #ORIGINALITY #WONDER #COMFORTING

TÉCHNE

LOW NOISE LEVEL AND HIGH ASPIRATION

THE ASPIRATION NOISE IS ALMOST INAUDIBLE. WELCOME TO A KITCHEN WHERE YOU CAN RELAX. WELCOME FRIENDS AND FAMILY. WITH ELICA YOU ARE AT THE “ATTRACTIVE” CENTRE OF THE HOME

THE VERY FAST AIR FLOW WITH THE VERY LOW NOISE LEVEL, WHERE ELICA SETS THE BENCH MARK.

TOP PERFORMANCE

VERY HIGH PERFORMANCE HOODS WITH AN ASPIRATION CAPACITY OF > 700 M^3/H AND A NOISE LEVEL BETWEEN 55 AND 60 DB(A) AT MAXIMUM SPEED. CONTROL TESTS SHOW THESE FAST AND SILENT HOODS ARE MARKET LEADERS.

TÉCHNE

THE SENSORS

THE TECHNOLOGY OF TÉCHNE LINE HOODS AUTOMATICALLY 'DISSOLVES' COOKING FUMES , THANKS TO ITS SENSOR. IN FACT, BY CHOOSING THE SENSOR MODE, THE HOOD RECOGNIZES THE QUANTITY AND QUALITY OF VAPOURS AND KITCHEN ODOURS AND AUTOMATICALLY ADJUSTS ASPIRATION, THUS GUARANTEEING OPTIMAL PERFORMANCE.

SENSOR TECHNOLOGY

THE TÈCHNE LINE HOODS CAN 'RECOGNIZE' THE QUALITY AND QUANTITY OF VAPOURS AND ODOURS THROUGH THEIR SENSORS. ON RECEIVING SUCH INFORMATION, THEY RESPOND BY SELF-ADJUSTING.

TÉCHNE

THE FILTER

ELICA DEVELOPS USER-FRIENDLY TECHNOLOGY THAT ALLOWS PEOPLE TO LIVE BETTER IN THEIR OWN HOME. INNOVATION AND RESEARCH INTO EVERY DETAIL OF THE HOOD IS AIMED AT MAKING KITCHEN ACTIVITIES EASIER. IN THIS CASE, THIS ADVANCED FILTERING TECHNOLOGY COMBINES MAXIMUM EFFICIENCY WITH VERY SIMPLE MAINTENANCE.

REVOLUTION FILTER

THIS NEW TECHNOLOGY BY ELICA ALLOWS IT TO REACH EXCELLENCE ON ODOUR FILTERING. REVOLUTION FILTER GUARANTEES FILTERING LEVELS GREATER THAN 82% IN COMPARISON TO A MARKET AVERAGE THAT IS AROUND 60%. THESE FILTERS CAN BE REGENERATED AND LAST UP TO THREE YEARS, WITH VERY SIMPLE MAINTENANCE. AS ALWAYS, ELICA PRODUCTS BLEND THE BEST TECHNOLOGICAL PERFORMANCE WITH GREAT USABILITY.

elica

TÉCHNE

COLD WHITE **LIGHT**

WARM WHITE LIGHT

LIGHTING

IN LINE WITH ELICA'S PHILOSOPHY, THAT AIMS AT GUARANTEEING HARMONY WITHIN THE HOME, LIGHTING IS GREATLY TAKEN INTO CONSIDERATION. TÉCHNE LINE HOODS CAN OFFER VARIOUS WAYS OF LIGHTING THE KITCHEN. THE NEEDS AND PREFERENCES, OR EVEN HABITS, OF THOSE WHO LIVE IN THE HOME, ARE MET BY THIS NEW FEATURE.

TUNE-WHITE

ELICA IS ALSO THE LEADER IN THE CUSTOMISATION OF KITCHEN LIGHTING. LED KITCHEN LIGHTING COMES IN DIFFERENT "TEMPERATURES" FROM WARM TO COLD WHITE. ELICA'S UNIQUE "TUNE WHITE" FUNCTION ALLOWS YOU TO MATCH THE HOOD LIGHT WITH OTHER LIGHTING IN THE KITCHEN, BY ADJUSTING ITS "TEMPERATURE" FROM WARM WHITE LIGHT (2700 K) TO COLD WHITE LIGHT (6000 K).

The Elica Deep Silence (EDS3) system allows the hood to function with the lowest level of noise possible in fact, at low speeds, there is no perceptible noise at all. This reduce domestic noise pollution of more than 35% with respect to traditional cooker hoods.

WIRELESS CONNECTIVITY

The wireless connection ensures constant communication between the induction hob and the cooker hood. Usage Wireless connection ensures constant communication between the induction hob and cooker hood. The hood selects the optimum operating speed to maintain air quality leaving you free to concentrate on cooking.

SENSOR TECHNOLOGY

The sensors monitor the quantity and quality of cooking vapours enabling the hood to regulate its operation.

TOP PERFORMANCE

Class leading performance in terms of extraction rate, typically over 700m3/h and noise levels of only 55 to 60 dbA at maximum speed.

HIGH PERFORMANCE

Excellent performance in terms of extraction rate between 600 and 700m3/h and noise levels of only 60 to 65 dbA at maximum speed.

DOUBLE BREATH

In addition to the front aspiration these models also have a lower opening for direct fume capture. Elica engineers are constantly searching for better and more efficient ways to capture fumes.

REVOLUTION FILTER

The latest Elica filters exceed 82% efficiency compared to a market average of 60%. The new filter is regenerated by washing in a dishwasher at 65°C or in hot water with a mild soap before drying in an oven for 10 minutes at 100°C every 2 to3 months. Filter life is up to 3 years

LONG LIFE FILTER

The Elica long life filter will last up to 3 years compared to 3 to 6 months for standard. The filter is regenerated by washing in a dishwasher at 65°C or in hot water with a mild soap before drying in an oven for 10 minutes at 100°C every 2 to3 months.

TUNE-WHITE

UNIQUE to Elica's hoods with this feature is the ability to adjust the warmth of the LED light from a warm 2700K to a bright white 6000K to blend in with the other lighting in your kitchen.

AMBIENT LIGHT

Elica efforts to integrate their hoods leaves no stone unturned. These hoods light the room not just the cook top and so are transformed from a kitchen appliance to a key lighting element.

DIM-LIGHT

The Dimmer allows you to adjust the brightness of the light as you wish. With Elica, lighting is customised in a discreet, personal and practical way, in order to contribute in creating the perfect kitchen atmosphere.

BACK ASPIRATION

Models equipped with this feature have air outlets at the upper and rear on the motor housing. The upper vent is used when the hood is installed in re-circulating mode or duct-out mode with a chimney and the rear vent is used to duct-out directly behind the hood.

EASY INSTALLATION

These hoods are particularly easy to install and adjust in all types of cabinetry.

NO-DROPS

Where quantity steam from boiling water meets a cold surface it condenses. To eliminate this inconvenience Elica has developed a system that includes warming the glass of the hood like a car's rear windscreen.

REMOTE CONTROLS

KIT0121468 WHITE

THE NEW ELICA RADIO CONTROL, DESIGNED BY FABRIZIO CRISÀ, IS SUPER THIN, RESISTANT AND PRACTICAL, THANKS TO THE MAGNETS THAT ALLOW IT TO BE PLACED ON METAL OBJECT. IT COMES IN GLASS OR ALUMINUM, IN BLACK OR WHITE.

KIT0121469 BLACK

ALL YOU NEED IS A LIGHT TOUCH TO ACTIVATE THE SENSOR (WHERE PRESENT), TO START USING THE HOOD IN **SENSE** MODE.

THE + KEY INCREASES THE ASPIRATION POWER, WHILE THE - KEY DECREASES IT. BY HOLDING DOWN THE LATTER, THE HOOD SWITCHES OFF REGARDLESS OF ITS CURRENT SPEED.

ALLOWS YOU TO TURN ON THE **AMBIENT LIGHT**. HOLD DOWN FOR A LONGER TIME TO ADJUST THE BRIGHTNESS OF THE LIGHT.

THE **LIGHT** ABOVE THE **HOB** IS SWITCHED ON BY LIGHTLY PRESSING THE KEY. BY HOLDING IT DOWN FOR A LONGER PERIOD, YOU CAN ACTIVATE THE ADVANCED FEATURES, ACCORDING TO YOUR MODEL: THE **DIM-LIGHT** (THAT ADJUSTES BRIGHTNESS) OR THE **TUNE-WHITE** (THAT ALLOWS FOR THE VARIATION OF THE LED LIGHT TEMPERATURE)

RECHARGEABLE BATTERY WITH MICRO USB PLUG. (CORD INCLUDED).
