

MASTER BROCHURE 2018

Setting new standards in kitchen style and performance

MAKE IT WONDERFUL

FRANKE

GUARANTEED FOR HALF A CENTURY OF WONDER

Once you've realised the kitchen of your dreams, it's only natural you want to retain it for as long as possible. To do that, you need reliable products of outstanding quality and Franke is guaranteed never to let you down. A huge **50-year guarantee** on our sinks means that your

Franke sink will be with you through those big moments in life and be part of your family for a generation or more.

Every Franke sink is backed by a 50-year guarantee for your peace of mind.

WE'RE CONFIDENT, SO YOU CAN BE TOO

Few other manufacturers can offer such a promise to you and that's because we are dedicated to the highest standards of design and craftsmanship. Our guarantee protects your sink against manufacturing defects for half a century.

MAKE IT WONDERFUL WITH THE FRANKE SINK AND TAP RANGE

It's easy to be ordinary; to have an ordinary home, filled with things you neither love nor hate. But you should never settle for ordinary and that's why we want to make everything we make wonderful. Wonderful turns a house into a home and turns work into play. Every Franke product aims to be wonderful in every way; from the first glimpse of carefully considered design, to manufacturing standards that ensures you can feel the quality and craftsmanship of every piece.

This brochure captures the spirit of wonderful in order to captivate and inspire you. A comprehensive range of sinks and taps can help turn an everyday kitchen extraordinary and turn a daily chore into a guilty pleasure.

Let everyone else be ordinary. Let's make it wonderful.

BE INSPIRED

We are constantly thinking of new ways to make our range even better, adding new products, new ideas and new innovations. Keep up to date with it all on our Facebook and Twitter pages.

CHOOSE YOUR PERFECT SINK

As the kitchen sink is seen as the heart of the kitchen, it's the perfect starting point for creating your dream kitchen. Let your imagination run free with a range of fabulous options to help you maximise space and accentuate the look of the entire room. There are however certain functional considerations to take into account and the following information will help to ensure that your ideal sink is the perfect fit for your ideal kitchen.

Inset sinks

Inset sinks are installed from above into a pre-prepared hole in your worktop. It gives you the widest range of sink shapes, sizes and styles to choose from.

Undermount sinks

Undermount sinks are installed underneath the worksurface and therefore require a solid surface worktop such as granite or wood, they are not compatible with laminate worksurfaces.

Belfast sinks

Belfast sinks can be used as either a freestanding feature with brackets or sit on top of base units.

Measuring your cabinet width

It is essential to correctly measure the cabinet width where your sink will be installed. The bowl (or bowls) will need to fit into this space. Each sink in this brochure will show a cabinet size, and your cabinet width needs to be equal to or greater than the stated measurement.

Bowl and drainer configuration

The type and position of your bowl depends on how you intend to use your sink. If you like room to clean large items like grill pans, a larger single bowl may be best for you, or for a multi-functional purpose, you may prefer the versatility of 2 separate working bowls.

The drainer location is also an important consideration. For many sinks you will need to choose the specific version you prefer – with drainer on the left or right hand side. Whereas other sinks are reversible which indicates the drainer can be positioned on either side.

Single Bowl

1½ Bowl

Double Bowl

BOWL CONFIGURATION

-   **LHD or RHD:** This indicates whether the drainer on the sink is found to the left or to the right of the main bowl.
-  **REV:** These reversible designs have a tap hole at the front and back, giving you the freedom to position the sink to provide either a left or right handed drainer.
-   **LHSB & RHSB:** For sinks without a drainer but with more than one bowl, this indicates which side the small bowl is positioned.

Material and finish options

The demands on your sink will dictate which material is right for your kitchen, as each precision engineered material has individual character and unique benefits. You can choose one that best fits with your cooking style, your lifestyle and your personal style

Stainless steel

Franke stainless steel sinks are made from premium quality chrome nickel steel, which looks stunningly beautiful, is highly resistant to staining, rust and corrosion - plus it won't chip, craze, flake or break. It's the most popular material - and for good reason: Stainless steel has a timeless quality that sits beautifully in a traditional or contemporary style kitchen, offering stunning good looks and a durability that helps keep it looking at its best for years.

Ceramic

Ceramic sinks have a smooth, impervious surface, which is resistant to all standard household chemicals. It's a very hardwearing choice that stands up to heat, staining and impact with ease.

Our ceramic sinks are available in a range of colours:

White

Matt Pearl Grey

Graphite

Fragranite

Fragranite is an exceptionally tough material which is highly resistant to burns, dents chips and stains. It was pioneered by Franke and contains 80% granite to form a unique material with a subtle sheen that is warm to the touch. Fragranite is available in a range of colours:

Polar White

Coffee

Onyx

Oyster

Stone Grey

Alabaster White

As an extension to the current color palette, Fragranite now comes in the outstanding Super metallic colours.

Copper Gold

Copper Grey

Lunar Grey

Sterling Silver

DETAILS THAT MAKE THE DIFFERENCE

Push-button pop-up waste

A pop-up waste enables you to conveniently empty the bowl without putting your hands in the sink. The patented push-button system from Franke has been tested to not only give you an extremely robust feature, but it also looks great too.

Franke Rollamat

The Franke Rollamat is a handy accessory, which can be used to drain glasses or crockery. It also doubles as a trivet to protect the work surface from hot, heavy cookware straight from the oven, hob or grill. When not in use, this innovative accessory can be rolled up and stored away. The Rollamat can be used on any work surface and with any undermount sink, but will specifically fit the drainer on certain inset sinks.

Sink Accessories

It's the little things that make life extra special, so we've developed a range of extras to do just that. People use their sink in different ways, so these products correspond to common kitchen activities, complement the design of your Franke sink and turn it into the ultimate multi-purpose workstation.

Advanced waste systems

Franke sinks are equipped with stainless steel basket strainer wastes which can be used to prevent foodstuffs from entering the waste system. But the attention to detail does not stop there; underneath the sink Franke waste kits may include such features as Sanitized® anti-bacterial properties and fast flowing air vent systems.

Heat & sound insulation

All Franke stainless steel bowls are sound insulated to reduce the sound of water in the bowl. This is achieved by rubber insulation pads under the sink, or by a sprayed dynaphon layer, applied during manufacture. The grey dynaphon spray also insulates, minimising heat escaping from the bowl, keeping water warmer for longer.

Hygienic overflow

Many Franke sinks come with a Hygienic Overflow, which offers versatility for cleaning. Simple removal of the logo plate reveals the overflow aperture for easy, hygienic cleaning.

TAPS WORTH TALKING ABOUT

Explore endless shape, line and contour possibilities to make an ordinary kitchen something special.

The Franke tap range provides your kitchen with a focal point – and in some cases, a talking point. Featuring cutting edge design and a whole host of innovative features to enhance your lifestyle – from filtered cold water, to instant boiling water – the range spans the entire spectrum of form and function.

Instant boiling water taps

Get instant 100°C water at your fingertips, straight from your kitchen tap, with Franke boiling water taps. Perfect for making drinks or getting meals underway in a flash, they combine safety, stylish design and cutting-edge technology.

Mixer taps

Our tap range spans the entire spectrum of design, from traditional bridge taps to the chic practicality of a chef's style tap. Many have features to simplify meal preparation and kitchen tasks so that the everyday can become wonderful.

Filtered water taps

Our FilterFlow taps deliver hot, cold and filtered water in high style. No need to buy bottled water and you can even do your bit for the environment.

Waste disposal units

Clever design frees the kitchen of unsightly and unhygienic organic household waste, leaving you to enjoy a clean, tidy kitchen. With an ease of use that's hard to beat it can even take the most mundane of daily chores and turn it into a little guilty pleasure.

Thanks to a permanent magnet motor, Franke Turbo Elite Waste Disposal Units reach high speed in a split second, producing more torque per kilo than any other of its type. Whilst running water through the unit, food waste is instantly liquefied into fine particles that are easily flushed through the pipework system.

Kitchen solutions

Everything in the kitchen should flow smoothly, not just the tap. That's why we create products to make your life easier in the kitchen and that help to maintain a tidy working environment.

The inset waste bin sits neatly in the countertop so food waste can be quickly and hygienically disposed of, while maintaining a minimalist look, and the Franke waste sorter range has multiple solutions to aid in the environmentally friendly disposal of waste.

Frames by Franke

Every Frames by Franke sink has a super slim steel frame and is fitted either flush or in slim profile. All come with a 50 year guarantee against manufacturing defects. The Frames sinks variable cover system gives you two working levels and sink bowls, in use at the same time.

Accessories

Turn your Frames sink into a multi-function work station with the addition of clever accessories that combine function and technology. From items that aid a hygienic kitchen, to those that make preparation a joy, you'll find accessories to surprise and delight, including the lightboard which fits exactly over the bowl of the sink, acting as an ambient cover – and it also proves its worth for everyday kitchen use as scales, a chopping board or a serving platter.

FRAGRANITE

INSET SINKS

TREATED WITH SANITIZED®

Fragranite is a durable and versatile material, which offers a whole host of aesthetic and practical benefits. The rich colour of the surface will not fade over time and won't stain or mark. As it's also heat, impact and scratch proof, it's the perfect material for the busiest family homes.

What really makes Fragranite wonderful is its Sanitized® treatment, which reduces bacteria and microbe growth by 99%, helping to keep the whole area clean and provides long-lasting protection.

Contains biocidal substance: silver phosphate glass. The silver ion locates the bacteria via the moisture and deactivates it.

CERAMIC INSET SINKS

Ceramic sinks combine beautifully with a variety of work surfaces such as wood, glass and granite. It's no wonder they have been a popular choice for years and their smooth, impervious surface is resistant to all standard household chemicals, making it perfect for modern, hardworking kitchens. It's a durable choice that stands up to heat, staining and impact with ease; so there's much more to ceramic than silky smooth good looks.

This logo indicates the sink has been produced in partnership with leading ceramic brand Villeroy & Boch.

NEW Arcana Ceramic sink

- Ceramic sink measurements may vary +/-1% due to the firing process.
- We recommend that the sink should be used as a template in all cases.
- Extended flange requires if installing a waste disposal unit.
- Shown with Eiger Chrome tap.

STAINLESS STEEL UNDERMOUNT SINKS

It's your kitchen, so why should you compromise on style or performance? Stainless steel undermounts are particularly easy to clean and exceptionally durable, so luckily you don't have to.

They give a flawless, uninterrupted look to your kitchen and for solid work surfaces such as granite and wood, a stainless steel undermount sink clips directly underneath the surface to provide a work area that is practical and hygienic. These sinks not only

look beautiful, but are resistant to staining, chipping, rust and corrosion. With a long history as the world's premium brand in kitchen sinks, you can be confident that you are buying a quality product with premium features. In fact, we are so confident about the quality of manufacture that we offer a 50-year guarantee on all Franke sinks.

CERAMIC, FRAGRANITE & TECTONITE UNDERMOUNT SINKS

Wonderful spaces should simply flow. With undermount sinks, there is nothing to break the smooth flow of your solid granite or wood worksurface. A granite undermount sink provides a subtle complement to your kitchen design. Alternatively, create a

bold contrast to granite surfaces with the striking look of a ceramic sink or add a splash of colour with hard, durable Tectonite. Either option represents a hardwearing choice that turns a kitchen into a work area that's a pleasure to be in.

INSTANT BOILING WATER TAPS

An instant boiling water tap is a wonderful addition to any kitchen. Depending on the model you choose, our new range of instant boiling water taps offer you 2-in-1, 3-in-1 or 4-in-1 functionality, meeting your needs with a combination of boiling, filtered or cold water on demand. At the same time, they can free up worktop space by removing the kettle from the kitchen as well as helping

to speed up preparation and cooking times. Choose a 2-in-1 or 4-in-1 model designed to deliver pure, fresh tasting filtered water and you'll never need to buy bottled water again. The simple to change filters will remove impurities and lower water hardness while retaining valuable minerals

FILTERFLOW TAPS & FILTERFLOW HAND SPRAY TAPS

The stylish and superbly engineered FilterFlow range is the blueprint for multi-tasking kitchen taps. Having filtered water at your fingertips means no more cumbersome, expensive bottled water, and naturally, there is the peace of mind of knowing your family's drinking water is clean, refreshing and free of impurities.

Franke FilterFlow taps remove a wide range of impurities, including chlorine, organic matter, chemical and pharmaceutical traces, metallics and sediment without removing minerals and desirable elements such as calcium, magnesium and fluoride.

The handsprays offer exactly the same filtration performance as the standard FilterFlow taps, but deliver extra versatility thanks to stand-alone hand spray, diverting water from the mixed water and are invaluable for spritzing fresh vegetables, rinsing crockery and keeping your sink clean.

Soft-Close Drawer Systems

The Franke 350 Series Waste Sorters have been designed to be installed into modern soft-close drawer systems including Blum, Hettich and Grass. Sorter 350-50 and 350-60 models can only be used in conjunction with soft-close drawer systems i.e. not suitable for standard cabinets.

- Soft-close drawer system
- Accommodated in cabinet floor
- System lid with integrated charcoal filter

Sorter 350-50

- Cabinet width 500mm
- 1 x 35L bin

	PRICE
Sorter 350-50	£171

FRANKE WASTE SORTER BINS

Fitting neatly into most standard cabinets Franke waste sorters feature separate plastic containers to sort domestic waste into different categories such as food, cans, plastic and paper. A lid closes over the bins to contain any odours. Franke Sorters are the convenient alternative to the conventional waste bin.

Sorter 350-60

- Cabinet width 600mm
- 1 x 35L bin
- 1 x 5.5L bin

	PRICE
Sorter 350-60	£214

Standard Door Systems

The Franke 300 Series Sorter Systems are a useful addition to any kitchen with standard doors, fitting neatly into 450mm and 600mm kitchen base units. Each bin has a handle that can also

be used to secure waste bags. The roll-out carrier is fully waterproof, simple to dismantle and easy to clean.

Sorter 300-45 Duo

- Cabinet width 450mm
- 2 x 22L bin

	PRICE
Sorter 300-45 Duo	£280

Sorter 300-45 Trio

- Cabinet width 450mm
- 1 x 22L bin and 2 x 10L bin

	PRICE
Sorter 300-45 Trio	£292

Sorter 300-60 Duo

- Cabinet width 600mm
- 2 x 22L bin

	PRICE
Sorter 300-60 Duo	£292

Sorter 300-60 Trio

- Cabinet width 600mm
- 1 x 22L bin and 2 x 10L bin

	PRICE
Sorter 300-60 Trio	£303

The Sorter Solo 50 and Solo 60 are mounted on a standard cabinet side wall to offer a convenient waste solution, featuring a system lid with integrated charcoal filter.

- Standard door system
- Mounted on standard cabinet side wall
- Soft-close mechanism

Sorter Solo 50

- Cabinet width 500mm
- 1 x 35L bin

FRANKE WASTE DISPOSAL UNITS

A choice of five waste disposal units designed to free the kitchen of unsightly and unhygienic organic household waste. Each unit is the essential add-on for ensuring that all Franke appliances and work surfaces remain looking immaculate.

Thanks to a permanent magnet motor, Franke Turbo Waste Disposal Units reach high speed in a split second, producing more torque per kilo than any other of its type. Whilst running water through the unit, food waste is instantly liquefied into fine particles that are easily flushed through the pipework system.

Waste Disposal Unit WDU Turbo Elite TE-75

Extended Flange

An extended flange is available from service agents at extra cost if required when fitting to ceramic sinks.

PRICE	
112.0489.809	£37

*Continuous Feed models are operated by an Air Switch (or alternative) and waste food is fed through the open neck of the unit. **Batch Feed model is activated by loading the chamber and rotating the WDU plug. Batch Feed model not compatible with ceramic sinks. In both cases, a continuous supply of water is necessary whilst the WDU is in use. Member of REPIC for WEEE Regulations. EEE producer Registration number - WEE/DG0059TT. When fitting a WDU to a single bowl model sink, it may be necessary to purchase an adaptor from the sink overflow, available from our service agents.

NB. Ensure WDU dimensions can be accommodated within the specified cabinet width.

Colours shown are for reference only. All sinks available with left or right hand drainer. The description 'reversible' means that the design enables the same sink to be turned to drainer on the left or drainer on the right. In the case of a 'handed' sink it is necessary to specify which side the drainer is required e.g. MMX 251 left hand drainer or MMX 251 right hand drainer. All bowls sizes and dimensions are described in mm.

Franke sinks are guaranteed against manufacturing defect for 50 years. Franke taps are guaranteed against defective materials and workmanship for 1 year in relation to coatings, 'O' rings and finishes (5 years for Portfolio 55 Collection), and 5 years in relation to valve mechanisms and working parts. Franke will replace (and where appropriate repair) defective sinks. In relation to taps, Franke will, where appropriate, provide replacement parts for your taps or replace your taps at their discretion. Any associated or ancillary costs to be incurred by you as a result of replacement of Franke sinks and taps under this guarantee shall in all cases be previously approved by Franke UK Limited. This guarantee is in addition to and does not affect your statutory rights. For full details see www.franke.co.uk/guarantee

Prices shown are UK mainland prices effective from 1st March 2018 and include VAT at the current rate of 20%. This literature has been produced on chlorine free materials harvested from sustainable forests. The Franke policy is one of continual improvement and Franke reserves the right to alter models and specifications without notice. E & OE.
